Android Workshop 7th and 8th November, 2014

Two days Android Workshop was organized on 7th and 8th November, 2014 jointly by Computer Science Department of Pt. Ravishankar Shukla University, Raipur, CSI Raipur Chapter and IIT Bombay. The workshop started with Sarswati Vandana. Dr. Sanjay Kumar, Head of the department of Computer Science said in his welcome speech that developers In Android environment are in short of supply and this is where this workshop comes in to picture.

The workshop was attended by around 70 number of students and faculty members. First of all participants were told about the basics of Android operating System, then architecture and applications of Android followed by extensive hands on session for writing small applications like sms application, sms broadcast application to a group, event handling programming like mouse and button clicks etc. The participants were given Android Software Kit which contained Android SDK, Eclipse IDE, java JDK and some notes in pdf form.

In the end certificates were distributed to participants. A practical based test on Android was also conducted in which 1st winner was Gurdeep Singh, 2nd was Devendra Ausar, 3rd was Jayshri Veram and 4th was Nidhi Jaswani. Vote of thanks was given by. Dr. Vinod Patle. With a view to relax the participants a small cultural function was also organized during the evening of closing day i.e. 8th November, 2014.
